PROFESSIONAL SUMMARY

Software Developer with 3.5 years of frontend experience and 1 year of backend experience in Node.js and Express.js. Skilled in React.js, TypeScript, API integration, authentication, and enterprise dashboard development, with a focus on clean Component-driven architecture and performance optimization.

SKILLS

- React.js, Next.js, TypeScript, JavaScript (ES6+), Context API, Redux Toolkit, Tailwind CSS, ShadCN, Material UI
- Performance Optimization, Component Architecture, REST API Integration,
- Node.js (CRUD + Middleware), MapLibre / react-map-gl
- CI/CD, API error handling, Web security (CORS, JWT Authentication), Code Splitting / Lazy Loading

WORK EXPERIENCE (3+ YEARS)

SOFTWARE DEVELOPER

Brilyant IT Solution | Bengaluru (Oct 2024- Present)

- Developed MDM Dashboard with React + Tailwind: device enrollment, remote wipe, compliance tracking.
- Built ITSM web modules (ticketing, SLAs, escalation) using React + Redux toolkit.
- Improved HRMS UI with dynamic forms, attendance calendar, self-service modules using TypeScript + ShadCN.
- Worked on reusable UI components and performance improvements.

FRONTEND WEB DEVELOPER

Web Universals | Bengaluru (May 2023 - Sep 2024)

- Delivered 3+ production web applications using React.js and improved delivery efficiency by 25%.
- Integrated REST APIs for dynamic dashboards and real-time data.
- Implemented responsive UI with modern CSS and performance best practices.

FRONTEND WEB DEVELOPER

Octal Optimum Technology | Bengaluru (Jan 2022 - Dec 2022)

- Developed React-based internal tools and contributed to reusable component design.
- Gained experience in frontend workflows, version control, and UI development.

ENTERPRISE PROJECTS (INTERNAL TOOLS)

INTERNAL PROPRIETARY SYSTEM, DEMO LINK NOT AVAILABLE

ITSM — IT SERVICE MANAGEMENT PLATFORM

Stack: React.js, JavaScript, Tailwind

- Built complete frontend architecture for ticketing, service catalog, incident and asset management.
- Integrated APIs, optimized UI workflows, improved performance.

HRMS — HUMAN RESOURCE MANAGEMENT SYSTEM

Stack: React.js, TypeScript, ShadCN, Radix UI, Node.js, Express.js

- Developed Employee Onboard, Recruitment, Leave Management modules.
- Improved component-level reusability.

MDM — MOBILE DEVICE MANAGEMENT SYSTEM

Stack: React.js, TypeScript, MapLibre, Tailwind, ShadCN, Radix UI

- Designed/developed geo-location tracking, geofencing on configurable radius, device plotting & map-based interactions.
